EXPERIENCE

- I have been a Frontend Web Developer for 5 years now working on different projects.
- I have worked at Eqbea.com platform as a teacher in Frontend development, I have courses on the platform.
- I've done freelance for multiple clients in a frontend role.

- **I have a lot of experience in building a very appealing user-friendly websites and applications because I have been building a lot of projects, and I have a lot of passion for this which helps with the motivation.**
- **Collaborated with experienced developers from great companies and I have also learned from them.**

FEW PROJECTS

Gym Website

- **Built a very user-friendly gym website with Javascript, HTML, CSS and Bootstrap.**
- **This project has a nice authentication set up that requires the user to at least fill in the form rather than submitting an empty form which is nice. | Gym Website**

MUSIC BLOG

- **I built this blog with javascript, React, HTML, CSS, and Bootstrap.**
- **This website has a very nice user-interface that is very appealing to the users. It has a download button where a user can download a music, and it also allows the user to stream the music. | Music Blog**

TRAINING BLOG

- **This is a simple Yoga blog I built with Bootstrap, HTML and CSS that has an appealing UI.**
- **When it comes to an appealing user interface, it has a very nice frontend with animation images displaying different yoga training slides, onload of the page.**

ACHIEVEMENTS

- **Senior sports man in high school (silver brand model high school) *2015-2017.**
- **Came 1st in the best IQ and spelling contest in a fellowship gathering in high school *2017.**
